Learn What Linga POS Can Do For Your Business

No Signal, No Problem

Linga POS has a special offline feature where the iPads work independently without the need of a server computer or another iPad. It even works without the internet. No WiFi, No Internet, No Problem.

Dashboards & Reports

Know your store by utilizing our Key Performance Indicator Dashboard to conveniently display your net sales, transactions, refunds etc. So you can have an accurate “at a glance” view.

Table Management

Optimize your resources by using our Table Layout feature. After you finish designing your floor plan layout, Linga POS will begin to calculate the following: guest count at particular tables, dining time length and even the average check amount.

Pizza by Slice

Emphasize the customization of pizza, all the way down to the slice! With Linga POS your customers can express their creative abilities to make the most elaborate pizzas in history. You can add and subtract each individual topping without ever having to delete the order.
